# Financial Results: Net Interest Income

(Consolidated; Unit: Billions of yen)

■ 1H FY2014 net interest income increased to JPY60.5 billion. This was primarily due to a significant reduction in deposit costs (JPY5.9 billion) as a result of the maturation of yen denominated campaign time deposits made in the past resulting in an improvement in total funding costs.

## Net Interest Income

## Interest-Bearing Liabilities

1H FY2014	Average Balance	Interest
Deposits/NCDs	5,729.4	5.7
<b>Campaign Time Deposits<sup>1</sup></b>	<b>140.3</b>	<b>1.2</b>

<sup>1</sup>Campaign yen denominated time deposits booked between September 2008 and June 2009

# Net Interest Margin

- Due mainly to the maturation of high interest rate campaign time deposits made in the past, the rate on deposits, including NCDs, declined significantly from 0.39% in 1H FY2013 to 0.20% in 1H FY2014. As a result, net interest margin improved to 2.28%

NIM (Net Interest Margin)<sup>1</sup>

Yields

<sup>1</sup> Includes income on leased assets and installment receivables

# Financial Results: Noninterest Income

(Consolidated; Unit: Billions of yen)

- While losses were incurred in the Bank's ALM operations on the sale of JGBs (undertaken in order to avoid interest rate risk resulting from major fluctuations in the market) in 1H FY2013, gains on sale of JGBs were recorded in 1H FY2014
- Due to a steady increase in revenue from market transactions, noninterest income in the Markets Sub-Group increased significantly

## Noninterest Income

## Major increased/decreased segments (Y-o-Y)

# Financial Results: Expenses, Expense-to-Revenue Ratio

(Consolidated; Unit: Billions of yen)

- Expenses, while we continued to promote operational efficiency, were JPY70.0 billion, increased JPY4.2 billion from 1H FY2013 due to increases in personnel and advertising expenses as a result of the investment of management resources in strategic focus areas
- As the increase in revenue exceeded the increase in expenses, the Expense-to-Revenue Ratio improved to 63.1% in 1H FY2014 from 65.6% in 1H FY2013

# Developing New Business Areas With a Focus on Renewable Energy

- Establishing the project finance market in Japan -

# Project Finance in Japan: Market Environment Understanding

- ◆ Japan has relied heavily on thermal power generation following the disaster at the Fukushima nuclear power plant.
- ◆ To resolve the issues of costs and the CO<sub>2</sub> emission increase, the Japanese government created a feed-in tariff scheme, which has led to the growth of solar power generation in particular.
- ◆ Renewable energy will require greater costs in the short term, but decrease costs over the medium- to long-term through the improved power source mix brought about by technological innovation.
- ◆ The domestic project finance market is growing due to increasing funding needs in the renewable energy field.

# Project Finance in Japan: Renewable Energy Market

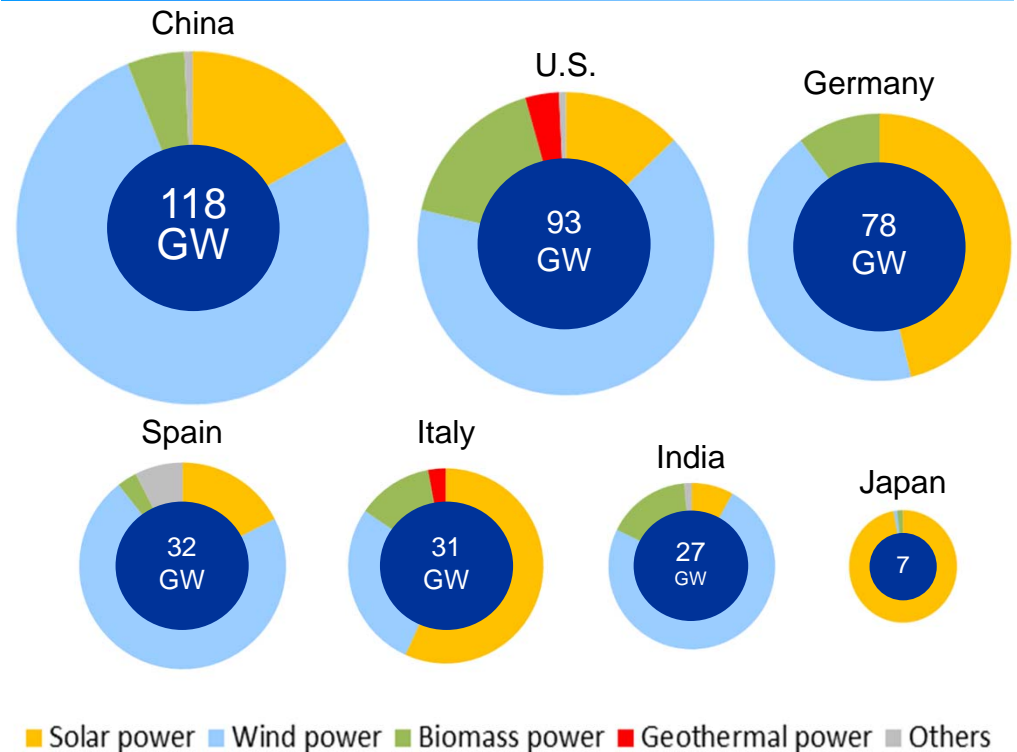

- ◆ The market for renewable energy other than solar power also growing since the introduction of the feed-in tariff scheme.
- ◆ Compared to other major countries, Japan relies heavily on solar power among other renewable energy sources.
- ◆ In the long term, new business areas such as wind power and biomass power where Japan falls behind other countries are expected to grow.

### New Energy and PFI Department, VBI Promotion Division

- Established in March 2012
- Position new energy and PFI as new business areas with high growth potential in the VBI strategy. Attempting to differentiate Shinsei Bank from other banks by supporting energy and PFI projects by means of business participation through financing.
- Seven members who are also members of the Project Finance Department

## Creation of ground-breaking structures

- Utilizing anonymous partnership (TK) investment schemes
  - ✓ Mega solar project in the eastern region of Hokkaido by JAG Energy Co., Ltd. (arranged in February 2013)
  - ✓ The first GK-TK (*godo-kaisha/tokumei kumiai*) scheme in project financing in Japan
- Scheme that utilizes a trust bank as a power producer
  - ✓ Mega solar portfolio project by Koyo Electric Co., Ltd.
  - ✓ Ground-breaking project in which a trust bank is used as a power producer (vehicle) in order to provide nonrecourse financing to an SME
- Others
  - ✓ Providing financing to renewable energy projects sponsored by non-Japanese businesses or infrastructure funds
  - ✓ Utilizing tranching to make it easier for regional financial institutions to participate and strengthen collaboration with them
