Shinsei Bank, Limited Corporate Governance Report

Last Update: June 21, 2018
Shinsei Bank, Limited
President and CEO Hideyuki Kudo
Contact: 03-6880-8303
Securities Code: 8303
<http://www.shinseibank.com>

The corporate governance of Shinsei Bank (the “Bank”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

Shinsei Bank, Limited (hereinafter “the Bank”) recognizes that enhancing corporate governance is one of the highest priorities to achieve our management principles, and has established a corporate governance framework as a “Company with an Audit & Supervisory Board”. This model aims to ensure appropriate managerial decision-making and business implementation in order to establish a corporate governance framework with sufficient organizational checking functions. We aim to achieve this through the following two key actions:

- 1) Consolidating business execution authorities and responsibilities in the Board of Directors, under oversight by outside Directors setting the broad direction of corporate strategy and establishing an environment where appropriate risk-taking by the senior management is supported; and
- 2) Assigning Audit & Supervisory Board Members and an Audit & Supervisory Board those are independent of the Board of Directors auditing duties that include auditing of the Board of Directors.

The Bank approves of the “Corporate Governance Code” applicable to listed companies in Japan which will come into effect in June 2015, in that we seek to adequately practice the Code for effective corporate governance in pursuit of sustainable growth and increasing corporate value over the mid- to long-term, and thereby contribute to the development and success of stakeholders and the Japanese economy as a whole. The Bank intends to enhance corporate governance in line with the basic policies outlined below for the respective general principles.

Basic guidelines on corporate governance

- (1) Shinsei Bank fully recognizes that without an appropriate cooperation with stakeholders including shareholders and investors, it would be difficult to achieve sustainable growth and shareholders are the primary starting point for corporate governance discipline. Shinsei Bank takes appropriate measures to fully secure shareholder rights and develop an environment in which shareholders can exercise their rights appropriately and effectively. In addition, Shinsei Bank enhances to secure effective equal treatment of shareholders.
- (2) Shinsei Bank fully recognizes that our sustainable growth and the creation of mid- to long-term corporate value are brought about a result of the provision of resources and contributions made

by a range of shareholders, including employees, customers and local communities. As such, Shinsei Bank endeavors to appropriately cooperation with these stakeholders.

- (3) Shinsei Bank seeks actively disclose various information regarding its management in order to increase in transparency of management, to obtain accurate understanding on our management status and policies from customers, investors and stakeholders, and to widely receive an appropriate evaluation from society. Shinsei Bank aims to provide voluntary, timely and continuous disclosure in fair and effective manner in terms of information not only those in compliance with the relevant laws and regulations but also additional information that does not fall under the Timely Disclosure Rules in order to meet needs from customers, stakeholders and investors. Shinsei Bank endeavors to engage in constructive dialogue with shareholders even outside the general shareholder meeting and to work for developing a balanced understanding of the positions of shareholders and other stakeholders and acting accordingly.

[Reasons for Not Implementing the Respective Principles of the Corporate Governance Code]

The company implements all the principles of the Corporate Governance Code, which was before revision in June 2018.

[Disclosure Based on the Principles of the Corporate Governance Code]

Initiatives and policies written in this section are based on principles of the Corporate Governance Code before the revision in June 2018.

Please refer to the “Policies for Initiatives Concerning the ‘Corporate Governance Code’” for initiatives and policies for each principle of the Code;

Policies for Initiatives Concerning the “Corporate Governance Code”

http://www.shinseibank.com/corporate/en/policy/governance/pdf/governance_code_e.pdf

(Principle 1.4 Cross-Shareholdings)

The Bank deems investment shares with the objective other than purely financial as cross-shareholdings, which in principle is restricted. However, for listed shares considered necessary to be acquired or held in view of the respective business status including the need to maintain business relations, the appropriateness of acquiring and holding the shares is verified according to predefined procedures, and the name, number, the balance sheet amount, and the objective of the shares as specific investment shares is disclosed in the securities report.

Specifically, a new cross-shareholding is approved by a panel consisting of the Heads of Executive Officers directing the related operations.

The cross-shares held are reported at regular intervals to the screening committee responsible for risk judgment of the cases, where mid- to long-term economic rationale and future outlook based on the expected return (including distribution of profits, unrealized profits, and indirect return gained by developing overall business) and risks are verified and the significance and policy of the cross-shareholding are discussed. The results of the discussions of the screening committee are regularly reported to the Board.

In exercising voting rights as to their cross-shareholdings, the pros and cons are assessed based on whether the cross-share contributes to the improvement of long-term share value, the possibility of incurring a disadvantage, and whether the cross-shareholding has been fully explained as needed.

(Principle 1.7 Related Party Transactions)

Concerning transactions with related parties including Directors, the Bank has an established process to consider the transaction according to the Bank Rules, mainly in light of the conflicts of interest with the Bank and the fairness of the transaction, and if needed, obtain the approval of the Board of Directors upon deliberating the conflicts of interest and the fairness of the transaction at the Special Transaction Review Committee where Audit & Supervisory Board Members (Full-time) are present. The Bank implements guidelines as Bank Rules pertaining to the transaction with major

shareholders of the Bank, in order to ensure independence required by the Bank Law in the relationship with major shareholders, based on the Bank Rules, the Bank has also established process to seek the judgment of the Board when a transaction that may cause conflict of interest is to be conducted. For transactions with related parties including Directors and with major shareholders of the Bank approved by the Board, the Bank will organize a system to secure the profits of the stakeholders based on objective judgment, including reports of important facts concerning the transactions to the Board following the initiation of the transactions, regular monitoring of the transactions by the Special Transaction Review Committee, and ensuring an appropriate monitoring framework by seeking the Board's judgment when necessary.

(Principle 3.1 Full Disclosure)

The Bank proactively provides the information listed below in order to enhance transparency and fairness in decision-making and ensure effective corporate governance. In doing so, we seek to make the provided information carry high added value for the user.

(1) Management principles and management plan

The Bank presents the objectives of the Shinsei Bank Group and defines our management principles which are positioned as the pillars of our future business operations, as well as reallocating management resources to business areas which are expected to deliver higher levels of growth by selection and concentration of businesses, engaging in the creation of customer value through the development of the new ideas through Group integration and defining the respective business strategies for the individual business and institutional business. The Bank's progress versus the MTMP progress will be regularly disclosed in the Message from the Management or in the Progress of the Third MTMP in the disclosure material.

(2) Basic views and guidelines on corporate governance

The Bank's basic views and guidelines based on the five principles of the Corporate Governance Code are stated under "1. Basic views on corporate governance" and "Basic guidelines on corporate governance."

(3) Board of Directors' policies and procedures in determining the remuneration of the senior management and Directors

Management remuneration is appropriately managed with the recognition that the Bank is in the position of having received the injection of public funds and currently executing the Revitalization Plan, on the grounds of an appropriate evaluation of the Management's duties and contribution to performance based on results-oriented principles, and with reference to the Bank's performance and market standards. The remuneration of the Directors is determined by the Board on the premise of the contents of the Revitalization Plan and within the total remuneration determined at the general shareholder meeting. Under these circumstances, the Bank has introduced the restricted stock compensation plan in addition to the equity remuneration type stock options for the purpose of enhancing the medium to long term incentive for Executive Directors to strive for sustainable growth of the Bank's corporate value.

(4) Board of Directors' policies and procedures in the appointment of the senior management and the nomination of candidates for Directors and Audit & Supervisory Board Members

The Bank's Board makes final decisions on the appointment of the senior management and the nomination of the candidates for Directors and the Audit & Supervisory Board Members based on the Bank Rules. The Bank adopts the procedure with a high level of transparency to decide the Executive Officers from among candidates based on their evaluations and performance. The appointment of Board of Director is eventually decided by the Board of Directors meeting after thorough discussion with a consideration of a balance among knowledge, experience and skills, diversity and appropriate size. Candidates for the Audit & Supervisory Board member are decided with the consent of the Audit & Supervisory Board, considering of the candidates' knowledge and experience in order to accurately, fairly and effectively audit business execution by the Bank's Directors.

(5) Explanations with respect to the individual appointments and nominations based on (4) The Bank

explains, in the reference documents of the Annual General Meeting of Shareholders, the individual appointments and nominations of the Executive Directors and nominations of candidates for Directors and Audit & Supervisory Board Members.

Bearing in mind that the Bank's shares held by foreign corporations and others based on substantial shareholders account for over 50%, we basically provide all disclosed materials in Japanese and English.

(Supplementary Principle 4.1.1)

The Bank's Board of Directors is constituted of two Executive Directors responsible for business operations and five Outside Directors responsible for supervising the operations, and makes appropriate decisions while ensuring the objectivity and transparency of the management. For ordinary business operations, the Bank adopts the Executive Officer system and assigns Chief Officers and Senior Officers for the Group Headquarters in order to realize flexible business execution. The specific scope of delegation is stipulated in the Rules of the Board of Directors and other Bank Rules.

(Principle 4.8 Effective Use of Independent Directors)

Of seven Directors, the majority, i.e., five, are Independent Outside Directors. The Board constituted with a majority of Outside Directors has been continued since the start of Shinsei Bank in 2000.

(Principle 4.9 Independence Standards and Qualification for Independent Directors)

The Bank judges the independence of the Directors considering the independence standards presented by the Tokyo Stock Exchange.

The Bank also selects Outside Director candidates who are expected to contribute to frank, active and constructive discussions at Board meetings.

(Supplementary Principle 4.11.1)

The appointment of Board of Director is eventually decided by the Board of Directors meeting after thorough discussion with a consideration of a balance among knowledge, experience and skills, diversity and appropriate size.

(Supplementary Principle 4.11.2)

The status of the Directors and Audit & Supervisory Board Members also serving at other companies has been appropriately disclosed in the business reports. The Bank considers that the status is reasonable in terms of the time and effort needed for the Board or the Audit & Supervisory Board.

(Supplementary Principle 4.11.3)

The Bank periodically conducts the evaluations/analysis of the effectiveness of the Board as a whole in order to improve the functionality of the Board. The Bank conducted self-evaluation as follows in fiscal year 2017:

- (1) Purpose: Enhance the Board of Directors' function by evaluating whether the Board has fulfilled its roles and responsibilities and by running the PDCA cycle
- (2) Targets for the analysis and evaluation: Board of Directors' activities and operational and support systems for conducting the activities in an efficient and effective manner
- (3) Evaluators: All participants of the Board of Directors (11 members including Directors, Audit & Supervisory Board Members, and others). The evaluation includes questions targeting Audit & Supervisory Board Members only.
- (4) Analysis and evaluation items: Discussions at the Board of Directors meetings, Agenda items and operation of Board of Directors meetings by the executive team, Composition and members of the Board of Directors, Provision of information to the Board of Directors from the executive team, Discussions at Strategy Sessions, Operation of the Sessions by the executive team, Communication, Third party assessment on the effectiveness of the Board of Directors, and Evaluation from Audit & Supervisory Board Member, etc.
- (5) Method for analysis and evaluation: Questionnaire survey by the secretariat of the Board of Directors Meetings based on the direction of the Chairman of the Meetings (with multiple responses and open-ended responses)
- (6) Feedback of the survey results: Selected responses and open-ended responses were reported to

the Board.

The results of the questionnaire survey have shown that the Board of Directors and discussions at Strategy Sessions have contributed to increasing the Bank's corporate value and achieving sustainable growth to some extent, discussing the medium-to-long term business vision and business models for increasing corporate value and achieving sustainable growth. The effectiveness of Strategy Sessions was also confirmed and agreed to be continued in fiscal year 2016 evaluation, and it has been evaluated in fiscal year 2017 evaluation as well that the Sessions remain effective for considering business strategies. It has been confirmed that further consideration about the composition and membership of the Board of Directors Meeting is needed for the diversity and the balance of the members. It has been evaluated that priority at the operation of the Board of Directors Meetings and Strategy Sessions by the executive team is mostly given to selecting agenda items and allocating time for discussion. Although improvements from 2016 are seen, some respondents have evaluated that discussion time is too long. It has been confirmed that more efficient and focused operation is needed by selecting agenda items that do not need explanations (which has been a challenge for us), and by striving to provide simple explanations. Mostly positive responses have been made for provision of information from the executive team to the Board of Directors including the contents of the meeting materials, however, it has been confirmed that explanations at the Board still need improvement.

The necessity of conducting an effectiveness evaluation by a third party, which was included in the questions for the first time in fiscal year 2017, will be considered including its use based on the intention of the Board of Directors.

Questions for Audit & Supervisory Board Members have confirmed that Audit & Supervisory Board Members have evaluated that, overall, Directors have executed their expected responsibilities in an appropriate manner.

The Bank will endeavor to maintain or improve such areas that were evaluated as appropriate or improved from fiscal year 2016, and implement reviews and improvements of issues in order to further boost the effectiveness and functionality of the Board.

(Supplementary Principle 4.14.2)

The Directors and Audit & Supervisory Board Members in the Bank have sufficient expertise, Furthermore, the Bank provides and arranges opportunities as well as provides financial support, to Directors and Audit & Supervisory Board Members to acquire knowledge, etc. necessary for the performance of their duties.

(Principle 5.1 Policy for Constructive Dialogue with Shareholders)

The Bank endeavors to proactively create opportunities to have dialogues with market players including investors, analysts, and the Bank's shareholders concerning matters that contribute to sustainable growth and increased corporate value over the mid- to long-term. The Group Investor Relations & Corporate Communications Division is enhancing an organizational structure to lay the groundwork through repeated pre-meetings with as many investors as possible to help them gain a better understanding of the Bank's management policies and financial status, for achieving more opportunities for dialogues between the senior management and the market players concerning increased corporate value over the mid- to long-term.

In March 2018, Shinsei Bank established the "IR/SR Policy of Shinsei Bank Group," which demonstrates the Bank's intention of utilizing Investor Relations (IR)/Shareholders Relations (SR) as an important management tool for sustainable corporate value improvement in a mid-long term perspective and constructively engaging with market players.

The IR/SR Policy designates the President & CEO as the responsible head of all the IR and SR related activities, and the President & CEO assigns senior management and the officers in charge of IR/SR activities. In addition, from time to time, the President & CEO appoints relevant senior management and/or personnel by taking into consideration subject matter experts where the market players have strong interest. The Bank makes efforts led by the President & CEO to proactively create the opportunities for the management to have constructive dialogues with market players concerning matters that contribute to sustainable growth and increased corporate value over the

mid- to long-term within the limited timeframe.

The Bank makes efforts led by the Group Investor Relations & Corporate Communications Division to liaise with the related divisions to reflect necessary information for the Bank's senior management to have constructive dialogue with market players and for market players to gain a better understanding of the Bank's management policies and financial status in the disclosed materials as much as possible within the reasonable scope. The Bank also proactively provides information in a more easy-to-understand way for dialogue with market players and for market players in various forms including briefings for market players, attendance at conferences held by third parties, telephone meetings, the Bank's website and disclosure materials, in addition to individual meetings. The Group Investor Relations & Corporate Communication Division share with the Board of Directors and Senior Management key points discussed with the market players on a regular basis. Important information is provided as a special report in a timely and appropriate manner. The Bank will maintain or improve its internal feedback system in order to utilize it as one of the Bank's important management information tools.

The Bank promotes constructive engagement with the market players proactively from a mid-and long-term perspective, such as its initiatives to improve corporate value and strategy. However, the Bank does not disclose the following important information during one-on-one meetings with the market players:

- Insider information
- Quantitative or qualitative information about the current progression about the data which we disclose in our quarterly public disclosures including voluntary disclosed information, but not yet officially announced
- Quantitative and qualitative information about the outlook of the following fiscal years

However, the Bank utilizes the following information for constructive engagement with the market players:

- Regarding the financial periods already announced in public, certain non-disclosed information can be shared for constructive engagement with the market players as long as it does not directly and independently assist the market players to make their investment decisions
- Announced information via our public website even if it is related to the financial period which has not been disclosed yet
- Viewpoints pertaining to opportunities and risks to our financial results if assumptions in our financial forecasts have changed

The Bank of course pays full attention not to include insider information concerning the Bank in the dialogues with market players, as well as appropriately manage the situation where it comes into contact with insider information concerning a market players according to Bank Rules established based on the predefined laws and regulations.

The Bank endeavors to identify its shareholder ownership structure through regular investigations on the substantial shareholding status, and uses the investigation results to efficiently identify the investors that the Bank should have constructive dialogue with.

2. Capital Structure

4. Policy on Measures to Protect Minority Shareholders in Conducting Transactions with Controlling Shareholder

–

5. Other Special Circumstances which may have Material Impact on Corporate Governance

The Bank's listed subsidiaries (currently one company) maintain systems to ensure fair and transparent management. In addition to holding annual general meetings of shareholders as an organization, the listed subsidiary has established a Board of Directors and an Audit & Supervisory Board and appointed accounting auditors. In accordance with an internal control system established through a Board resolution, the Board of Directors delegates authority for day-to-day business operations to Executive Officers, while the Board of Directors focuses on executive level decisions on important corporate-wide matters such management policy and on the oversight of business execution.

In addition, as a bank licensed to operate in Japan, Shinsei Bank assumes the responsibility of ensuring that the entire Shinsei Bank Group, including all subsidiaries, practice appropriate compliance and risk management in accordance with all related laws and guidelines. Close cooperation and coordination between the parent company and its subsidiaries is essential to ensuring that the Bank fulfills this responsibility.

Regarding the management of insider information and information security, the entire Shinsei Bank Group is keenly aware of the need to ensure that legal violations do not occur, and toward that end we have established appropriate procedures and communication systems.

In 2008, investment vehicles advised by J.C. Flowers & Co. LLC (JCF), an investment advisory firm in which Shinsei Bank Director J. Christopher Flowers serves as Managing Director and Chief Executive Officer, became the Bank's largest shareholders through the purchase of shares via a public tender offer and a subsequent allocation of new shares to the same investment vehicles, and in accordance with Japan's Banking Act were registered as the Bank's Major Shareholders. In addition, in March 2011, the same investment vehicles and other parties related to JCF acquired additional shares of the Bank via an international offering of new common shares, thereby sustaining their position as the Bank's largest shareholders.

Regarding transactions involving directors and related parties, please refer to the Principle 1.7 Related Party Transactions in the "Disclosure Based on the Principles of the Corporate Governance Code" section.

Cooperation among Audit & Supervisory Board Members (*Kansayaku*), Accounting Auditors and Internal Audit Departments

The Audit & Supervisory Board Members invite the accounting auditors to participate in board meetings. The accounting auditors then explain the status of verification of compliance with internal controls at the Bank and Group companies and the contents of accounting audit reports and exchange opinions with the Board Members. To ensure their independence and the appropriateness of audit methods, the Board Members also listen to presentations on audit plans and the internal management system of accounting auditors.

The Audit & Supervisory Board Members receive regular status reports from each department participating in the internal control system, including the Group Internal Audit Division, which is responsible for internal audits, the Risk Management Group, and the Credit Assessment Division. The Group Internal Audit Division, in addition to receiving the approval of the Audit & Supervisory Board for its internal audit plans, must report directly to the Board. In addition to regular internal audits, the Group Internal Audit Division performs individual audits at the request of the Audit & Supervisory Board.

--	--------------------------

Supplementary Explanation

Information about the amounts of compensation paid to Directors is disclosed in the Business Report (Corporate/IR - Annual General Meeting of Shareholders) and the securities reports posted on the Bank's website. The securities report for fiscal year 2017 (ended March 31, 2018) discloses Directors' compensation as follows.

Directors' compensation: 104 million yen (total paid to two Directors, excluding Outside Directors)
 Audit & Supervisory Board Members' compensation: 20 million yen (total paid to one Audit & Supervisory Board Member, excluding Outside Audit & Supervisory Board Members)
 Outside Directors' and Outside Audit & Supervisory Board Members' compensation: 72 million yen (total paid to 7 Outside Directors and Outside Audit & Supervisory Board Members.)

Notes:

1. Figures have been truncated to the unit stated in all amounts shown above.
2. In the above categories, two Directors also work as Executive Officer.
3. The Bank does not pay performance-linked compensation to its Directors.
4. The 15th General Meeting of Shareholders held on June 17, 2015 adopted a resolution to set ceilings for the total amount of compensation, etc. paid to Directors at 180 million yen a year (including 60 million yen for outside Directors) and the 10th General Meeting of Shareholders held on June 23, 2010 adopted a resolution to set ceilings for the total amount of compensation, etc. paid to Audit & Supervisory Board members at 60 million yen a year. However, these amounts do not include salaries payable to Directors as the Bank's employees when they also

work as the Bank's employees.

5. The Bank resolved at its Board of Directors meeting, held on May 12, 2015 to abolish of the retirement allowance plan for Officers and the introduction of equity remuneration type stock options to the Full-Time Directors was resolved at the 15th General Meeting of Shareholders held on June 17, 2015. Separately from the maximum remuneration stated above, the 15th General Meeting of Shareholders held on June 17, 2015 adopted a resolution to set ceilings for allotment the Subscription Warrants not exceeding 50 million yen annually to the Full-Time Directors as equity remuneration type stock options.
- 6.

At the 18th General Meeting of Shareholders held on June 20, 2018, the Bank resolved to implement a restricted stock compensation plan targeting the Bank's full-time Directors, for giving the Directors an incentive to achieve sustained improvement of the corporate value of the Bank and of sharing more of that value with our shareholders. The amount of remuneration has been resolved at 20 million yen or less per year, which is within the scope of the existing limit of compensation for Directors stated above.

Policy on Determining Remuneration Amounts and Calculation Methods
--

Established

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

Board of Directors' policies and procedures in determining the remuneration of the senior management and Directors

Management remuneration is appropriately managed with the recognition that the Bank is in the position of having received the injection of public funds and currently executing the Revitalization Plan, on the grounds of an appropriate evaluation of the Management's duties and contribution to performance based on results-oriented principles, and with reference to the Bank's performance and market standards. The remuneration of the Directors is determined by the Board on the premise of the contents of the Revitalization Plan and within the total remuneration determined at the general shareholder meeting.

[Supporting System for Outside Directors and/or Audit & Supervisory Board Members (*Kansayaku*)]

The Office in charge of the Board of Directors provides information needed by Outside Directors to properly and efficiently fulfill their duties. Prior to meetings of the Board, the Office distributes draft proposals and other documents to each Board member at a timing that allows sufficient time for review prior to the meeting, thus securing a support system for Directors that ensures they have the information necessary to make appropriate decisions at Board of Directors meetings.

Similarly, assistants are assigned to provide support required by the Audit & Supervisory Board Members to conduct audits.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System)

Shinsei Bank has established a corporate governance framework as a "Company with an Audit & Supervisory Board" (*kansayakukai-setchi-gaisha*). Through this corporate governance framework the Bank has concentrated the authority and responsibility for the execution of the Bank's business in the Board of Directors, the highest managerial decision-making body within the Bank, and through the tasking of auditing functions to the Bank's auditors and Audit & Supervisory Board, which is independent from the Board of Directors as well as the execution of business, the Bank seeks to ensure a corporate governance framework which facilitates appropriate managerial decision-making and business execution while also ensuring a rigorous system of organizational checks and

balances.

Additionally, the Bank is in full agreement with the spirit of the “Corporate Governance Code” implemented in June 2015, which applies to all companies listed on Japan’s stock exchanges, and through the pertinent implementation of the Code in order to realize effective corporate governance, the Bank seeks to continue strengthening its corporate governance to in order achieve sustainable growth and enhance its corporate value over the mid to long term.

Corporate Governance of Shinsei Bank

Shinsei Bank’s Board of Directors, the Bank’s decision-making body for its business management, consists of seven Directors; two full time directors who are directly responsible for the execution of the Bank’s business and five outside Directors who primarily supervise the Bank’s business execution. This combination of internal and external Directors ensures the transparency and objectivity of the Bank’s management and fosters appropriate decision-making regarding the Bank’s operations. Additionally, the Bank has adopted an Executive Officer system organized around the two Executive Directors and placed Chief Officers and Senior Officers in the Group Headquarters in order to facilitate flexibility in the execution of the Bank’s day to day business operations. Specifically, “Divisions” are designated as the most basic business unit in the Bank, and under the direction of Executive Directors including the President, Executive Officers, Chief Officers and Senior Officers who are delegated authorities by the Board of Directors undertake operations for which they are responsible, centering on Executive Officers who act as head of a specific field and Chief Officers. Though this system, the Bank is working to realize an efficient management structure. Furthermore, through the auditing of the Bank’s Board of Directors and the Bank’s business execution by the Audit & Supervisory Board Members and Audit & Supervisory Board, which are independent from the Board of Directors, the Bank seeks to create a strict corporate governance framework which will encourage the adoption of optimal and balanced management policies, through which the Bank seeks to enhance its corporate value.

Characteristics of Shinsei Bank’s Corporate Governance

Since its inception as Shinsei Bank in 2000, the management of the Bank has consistently engaged in management which emphasizes the supervisory functions of outside Directors in order to achieve transparency and objectivity management as it seeks to achieve sustainable growth and enhance the Bank’s corporate value over the mid to long term. In accordance with its corporate governance framework as a “Company with an Audit & Supervisory Board,” the Bank has a Board of Directors structure in which outside Directors outnumber internal Directors, with two internal Directors responsible for daily business execution and five outside Directors. The current outside Directors are a well-balanced group of executives that bring to the Bank their extensive experience and expertise in a range of fields strongly related to the Bank’s business, including domestic and overseas financial businesses, consumer-related businesses and the fields of risk management and information systems. Drawing upon their experience and expertise, the Bank’s outside Directors provide independent and objective perspectives regarding the Bank’s management and operations and fulfil vital roles as both supervisors and advisors to the Executive Directors overseeing the business execution of the Bank.

The Board of Directors holds six scheduled meetings a year, with extraordinary meetings convened as necessary. At these meetings, all Board members express their opinions freely and engage in robust discussions. The outside Directors articulate their views regarding the management of the Bank, drawing upon their diverse backgrounds to offer a broader range of perspectives on topics being discussed and perform supervisory roles regarding management issues such as whether optimum strategies are being adopted, whether the risk-return balance is appropriate and whether a particular course of action will contribute to the growth of the Bank’s businesses. By determining policy through such discussions the Bank seeks to achieve sustainable growth and enhancement of the Bank’s corporate value over the mid to long-term, protection of the interests of all stakeholders including our shareholders and customers as well as maintain appropriate business promotion frameworks. Furthermore, efforts to improve the effectiveness of the Board of Directors by enabling the Board members to focus on discussing key management issues and important matters which affect the mid- to long-term sustainable growth of Shinsei Bank.

The Outside Directors and Audit & Supervisory Board Members of Shinsei Bank are not involved in the day to day execution of the Bank's business and in order to ensure the sharing of their independent viewpoints as well as to share detailed information regarding the execution of the Bank's business with each of the outside officers, the Bank holds regular meetings attended only by the outside officers. Through these meetings each outside Director and Audit & Supervisory Board Member is able to more effectively fulfill their role as supervisors, advisors and auditors to the Executive Directors responsible for the Shinsei Bank Group's day to day operations.

In regard to transactions with Directors, major shareholders, and other stakeholders, the Bank conducts checks to avoid conflicts of interest and maintain the fairness of transactions. The Bank has established frameworks for deliberating on relevant transactions at the Board of Directors meetings and conducting necessary follow-ups. Term of office for Directors has been set at one year in the Bank's Articles of Incorporation. Candidates for Director as well as the remuneration of individual Directors within the parameters set for the upper limit for total Directors' compensation by the General Meeting of Shareholders will be decided by the Board of Directors.

Executive Officers, Chief Officers, Senior Officers and Executive Committees and Group Executive Committee

Shinsei Bank has adopted the Executive Officer system to ensure the flexible execution of day-to-day business operations and has placed Chief Officers and Senior Officers in the "Group Headquarters". As of June 20, 2018, the Bank's business activities are being overseen by 34 Executive Officers, Chief Officers and Senior Officers including the two Executive Directors, appointed by the Board of Directors. Under the direction of the Executive Directions, including the President, Executive Officers, Chief Officers and Senior Officers tasked with the oversight of individual business areas, each appointed by the Board of Directors, in accordance with the Bank's Heads of Executive Officer in charge and Chief Officers structure engage in the efficient operation of their respective businesses.

Additionally, the Bank has established the Executive Committee, comprised of Executive Directors and the Heads of Executive Officers in charge, as the decision making body through which the President makes determinations regarding the execution of the Bank's business, enabling swift, efficient operational management. As for Group governance, in concert with the move to a Group Headquarters system in April 2017, we established the Group Executive Committee as a venue where we could make decision on important matters concerning overall Group management and where Chief Officers, Executive Directors overseeing execution at major Group companies, and others could attend. We have thus put into place a system that enables optimal and efficient decision-making for the Group as a whole. The Executive Committee and the Group Executive Committee are convened on a weekly basis in order to deliberate on matters concerning the Bank's and the Group's business operations, and through these deliberations the alignment of the sections responsible for each business with the Bank's and the Group's overall management strategy and strategic direction is ensured.

Furthermore, the Bank has established numerous cross-functional committees around the Executive Officers and the Group Executive Committee in charge in order to enable the Bank to appropriately and flexibly respond to issues arising from the increasing specialization and sophistication of the Bank's business. (Group ALM Committee, Group Compliance Committee, Group Risk Policy Committee, Group IT Committee, Group Business Continuity Management Committee, Group Basel Committee, Group Management Development Committee, Doubtful Debt Committee, SME Loan Committee, etc.)

Audit & Supervisory Board Members/Audit & Supervisory Board

The Audit & Supervisory Board of Shinsei Bank is composed of one full-time member who has extensive business experience at the Bank and is knowledgeable in finance and accounting and two outside members (male: one, female: one), one of whom is an attorney and the other who is a certified public accountant. By applying the expertise from their respective fields of specialization and their knowledge of corporate governance, the Audit & Supervisory Board, which is fully independent from the Board of Directors, engages in appropriate audits of the Board of Directors'

management of the Bank's business. In addition, both outside Auditors are experienced as external directors of other companies and by drawing upon their experience are able provide views with greater objectivity from a position of greater independence, resulting in enhanced effectiveness of the Audit & Supervisory Board's auditing activities.

The Audit & Supervisory Board Members, in addition to personally conducting audit activities such as attending key meetings, such as Executive Committee and Group Executive Committee meetings, in addition to Board of Directors meetings, review key documents and as well interview Directors, Executive Officers and accounting auditors, engages with internal control sections such as the Group Internal Audit Division and utilize staff of the Office of Audit & Supervisory Board (three employees) to systematically and efficiently audit the state of the business execution of the entire Shinsei Bank Group including the Bank as well as its subsidiaries.

Internal Audit

The Group Internal Audit Division (GIAD) of the Bank regularly makes direct reports regarding the results of audits and the status of GIAD activities to the President and the Audit & Supervisory Board. The GIAD supports the President in his responsibility for controlling business execution, in particular for establishing an effective system of internal controls, and also supports the Audit & Supervisory Board in their responsibilities for audit and supervisory activities, in particular for monitoring the system governing internal controls and its operation. The GIAD provides independent and objective assessments of the effectiveness of risk management, control and governance processes, the reliability of information and information technology systems, and compliance with statutory, legal and regulatory requirements as well as internal policy and procedure requirements of the Bank, and provides solutions to management.

The GIAD is independent of all organizations subject to internal audits, as well as being independent of day-to-day operational activities and control processes, including regular preventive and detective controls. The GIAD utilizes a risk-based audit approach and creates a comprehensive risk assessment by combining a macro-risk assessment, assessing risk from the perspective of the Banking Group as a whole, together with a micro-risk assessment, assessing risk from an individual business level. Audit resources are prioritized to businesses or processes perceived to have relatively higher risk.

In order to improve the effectiveness and efficiency of internal audit activities, it is important to gather relevant information about the business departments. To do so, the GIAD has enhanced its off-site monitoring activities by attending key management meetings, reviewing internal control documents and holding regular meetings with senior management.

Comprised of the Business Audit Team, the IT Audit Team and the Quality Control and Planning Team, the GIAD takes the initiative in developing our internal auditors' expertise, in particular, strongly encouraging them to obtain professional certifications such as the Certified Internal Auditor and Certified Information Systems Auditor qualifications.

While the GIAD pursues the development and introduction of new audit techniques, it also recognizes the importance of maintaining fundamental skills necessary to performing its governance-related duties. By receiving regular quality assessments of the GIAD's internal audit activities carried out by a third party organization, we are enabled to identify opportunities for improvement across the group from an objective viewpoint.

3. Reasons for Adoption of Current Corporate Governance System

In companies with committees, responsibility for the normal conduct of business lies with the responsible Executive Officers. Directors are mainly responsible for the oversight of business execution, thus realizing a clear separation of business executive and supervisory functions. However, the Bank is now expected to ensure more active involvement by the Board of Directors in internal control system establishment and risk management. It also recognized the need to strengthen its audit functions, such as daily business execution audit activities by full-time Audit & Supervisory Board Members, and supervision of business execution and Director activities by Audit & Supervisory Board Members responsible for audits and independent from directors. Based on such an understanding, the Bank changed its governance framework as a "Company with an Audit & Supervisory Board" (*kansayakukai-setchi-gaisha*) June, 2010.

III. Summary of Measures Implemented for Shareholders and Other Stakeholders

1. Measures to Enhance Annual General Meetings of Shareholders and Enable the Efficient Exercise of Voting Rights

	Supplementary Explanations
Early Notification of General Shareholder Meeting	The Notice of Convocation of the Annual General Meeting of Shareholders for the 18th Term was mailed to the Bank's shareholders on May 30, 2018, three weeks prior to the meeting. A digital copy of the notice of convocation was also posted to the Bank's website prior to the mailing of the notice of convocation.
Scheduling AGMs in a Way that Avoids Overlapping with Other AGMs	The Annual General Meeting of Shareholders for the 18th Term was held on Wednesday, June 20, 2018.
Electronic Exercise of Voting Rights	The Bank utilizes an online electronic voting system
Participation in an Electronic Voting Platform and Measures for Enhancing the Exercise of Voting Rights	The Bank utilizes the voting rights exercise platform for institutional investors operated by ICJ.

3. Measures to Ensure Due Respect for Stakeholders

	Supplementary Explanations
Stipulation of Internal Rules for Respecting the Position of Stakeholders	We declare our commitments in the Charter of Corporate Ethics as follows. "We will increase our profitability and enhance shareholder value by maintaining our business operations under full control and by taking appropriate risk."
Implementation of Environmental Activities, CSR Activities etc.	<p>The Shinsei Bank Group aims to create a sustainable society by prioritizing our activities centered on the three themes of "nurturing the next generation," "the environment," and "disaster relief activities" after the Great East Japan Earthquake in 2011. The Shinsei Bank Group also continues to participate in charity runs and supports other activities that are strongly supported by our employees.</p> <p>In response to the Great East Japan Earthquake, employees from Shinsei Bank and Group companies have undertaken volunteer work in the affected areas. In fiscal year 2017, in addition to engaging in volunteer activities twice in areas affected by the disaster in Miyagi Prefecture, the Bank is continuing to support the disaster stricken areas through a wide range of activities aimed at contributing to recovery efforts providing support by holding fairs to sale food and goods made by employment support workshops for people with disability in the Miyagi Prefecture. Shinsei Bank will continue to strive to provide smooth access to financial services in order to help the areas affected by the disaster as quickly as possible.</p> <p>Leveraging the strength of the Bank and its Group companies, the Bank provides the financial literacy program "MoneyConnection" in collaboration with the NPO "Sodateagenet," a program aimed at preventing young people from unemployment. In fiscal year 2006, the program was co-developed and delivered by Shinsei Financial and</p>

	<p>Sodateagenet. Since fiscal year 2012 the Bank has sponsored Sodateagenet as part of its CSR activities and continues to provide the program in cooperation with the NPO. The Bank endeavors to expand this program through cooperation with regional financial institutions, and together with The Kiyo Bank, Ltd. and The Bank of Iwate Ltd., is expanding the area in which it provides the program. As a result of these efforts, the course has been offered at 943 schools in 35 prefectures across Japan, with the cumulative number of student participants totaling 122,811. Collaborating with its Group companies, Shinsei Bank aims to expand its contribution to the regional society.</p>
Development of Policies on Information Provision to Stakeholders	<p>In order to increase management transparency, to ensure an accurate understanding of the Bank's business conditions and management policies by customers, shareholders, and investors and to secure appropriate evaluations of the Bank by the financial markets and society at large, the Bank actively discloses a wide variety of information related to its management and business. In addition to providing legally required disclosures, the Bank endeavors to meet the disclosure requirements of customers and other stakeholders through the voluntary, timely, continuous, and impartial disclosure of information.</p>
Other	<p>To achieve the targets of the Bank's Third Medium-Term Management Plan and realize sustainable growth while fulfilling the Bank's Management Principles, the Shinsei Bank Group has integrated function of may Group member companies with a broad spectrum of financial functions. With understanding that the diversity is a big key issue to utilize the Group's strengthen of human resources, Shinsei Bank has created a work environment, systems, and processes that enable each employee to contribute as much as possible to the organization by harnessing his or her unique aspiration, attributes, and capabilities. In order to promote the diversity initiatives in the Shinsei Bank Group, the Bank established the "Diversity Promotion Department" in the Group Human Resources Division in February 2018 and the "Group Committee to Promote the Active Participation of Women" effective the same day to take initiatives in effective measures to promote active participation of Women. In order to show the intention to promote the diversity, the President & CEO present assented to the declaration on action by "A Group of Male Leaders Who Will Create a Society in Which Women Shine."</p> <p>Of these, initiatives to promote the role of women in the Bank's workforce have included various ongoing support programs for female employees, including childcare leave. Through such programs and initiatives, female employees have come to occupy 30% of the Bank's all titled managers as of April 1, 2017. The Bank plans to raise this percentage to 35% by 2020. In addition, the Bank appointed its first female Executive Officer in April 2013. Going forward, the Bank hopes to promote more female employees to executive-level positions. Toward that goal, since 2013 we has started an annual "Leader Development Seminar for Female Employees" for the purpose of further developing the capabilities of ambitious female employees aiming to fill core management positions in the future.</p>

IV. Matters Related to the Internal Control System

1. Basic Views on Internal Control System and the Progress of System Development

In order for corporate governance to function effectively, in addition to creating business execution oversight and decision-making frameworks around the Board of Directors, the placement of frameworks which facilitate the proper functioning of functions such as internal audits and compliance is also necessary. Additionally, the creation of internal control systems as required by the Corporation Act or internal controls which ensure the accuracy of financial reports as required by the Financial Instruments and Exchange Act is also a crucial element in a properly functioning corporate governance structure. While management is responsible for ensuring the implementation of such internal controls, the proper function of overall internal controls can be ensured installing detailed internal control frameworks within the Divisions executing business operations. Shinsei Bank's basic policy governing the internal control systems put in place in order to ensure the propriety and efficiency of day to day operations and is defined in the "Internal Control Rules" determined by the Board of Directors, and furthermore, the adequacy of internal control systems is reviewed annually by the Board of Directors. The "Internal Control Rules" stipulate that (1) the internal control systems shall consist of a self-disciplined function in the business execution line in the field (hereinafter, the "First Line"), management functions that are independent from the business execution line in the field such as risk management and compliance functions (hereinafter, the "Second Line"), and an internal audit line (hereinafter, the "Third Line") and (2) in order to capture and address serious risks and problems appropriately, the Board of Directors shall receive reports from the Second and Third Lines in a timely manner and shall examine major policies and controls regularly. The Rules, in addition to creating a framework for safeguarding the effectiveness of audits by the Audit & Supervisory Board Members, defines the Shinsei Bank Group Code of Conduct, the Risk Management Policy, the Group Information Security Policy, the Regulations of Business Execution, the Subsidiaries and Affiliate Policy, the Group Headquarters Organization Management Policy and the Internal Audit Policy as the underlying provisions aimed at preserving the propriety, transparency and efficiency of the operations of the entire Shinsei Bank Group including subsidiaries. Furthermore, the Bank has instituted frameworks to ensure the propriety of the operations of the Bank, and as required by the Charter of Shinsei Bank Group Corporate Behavior in regard to the prevention of relationships with antisocial forces, the Bank continues to prevent and terminate any such. As for Group governance, we have consolidated support function of our Group companies in the Group Headquarters within the Bank to the extent permitted by the Banking Act, Corporation Act and other laws and regulations and started its operation in an integrated manner since April 2017, in accordance with the May 2015 amendment of the Corporation Act and the concept of "Group integration" introduced in the Bank's Third Medium-Term Management Plan that started in April 2016 and in its medium- to long-term vision. We have also put in place management framework which facilitates collaboration among the Division in charge and Specialized Sections to manage subsidiaries and affiliates. Under these systems, the business activities of the subsidiaries and matters concerning their governance are periodically reported to the Group Executive Committee and important matters concerning the management of the subsidiaries are submitted to the Committee for its approval. Through these measures, we are working to realize an optimal Group-wide structure and provide higher added value that translates into improved customer services, as well as strengthening Group governance and enhancing efficiency of corporate management and internal controls as a whole group.

With respect to the promotion of the active participation of women, Shinsei Bank formulated an action plan in April 2018, which the target for female employees to take 17% of the managerial positions (section manager of higher)¹(13.8% as of the end of March 2018) and 35% of the managerial positions (chief clerk or higher)² (30.0% as of the end of March 2018) by the end of fiscal year 2020.

¹ Senior Manager of higher positions

² Manager of higher positions

2. Basic Views on Eliminating Anti-Social Forces

The Shinsei Bank Group has made clear its position on the exclusion of antisocial forces, and the Group's Internal Control Rules state that the Bank and all Group companies will "prevent relationships with antisocial forces." Accordingly, in our Charter of Shinsei Bank Group Corporate

Behavior, we declare that will take a firm and resolute stand against antisocial forces that threaten the order and security of our society, and that we will consistently prevent illegal interference by such antisocial forces and completely exclude and eliminate any relationships with such forces to block their activities.

Furthermore, on the organizational side, we have designated the Group Legal and Compliance Division's Financial Crime Information Department as the unit responsible for supervising and planning management functions related to preventing transactions with antisocial forces. Working closely with the Group General Services Division, which provides on-site responses, the Department undertakes various initiatives directed at preventing relationships with antisocial forces. More specifically, the Department has established a monitoring system designed to help it better grasp the presence or absence of contact with antisocial forces, including at Group companies, and it reports regularly to the Bank's management. In addition, the Bank and its principal subsidiaries have established oversight departments that dispatch officers to branch offices to deal with unreasonable requests.

In addition, the Bank performs regular checks for possible involvement with antisocial forces before entering into a transaction and after conclusion of the transaction. If a transaction is found to involve antisocial forces, the Bank contacts all related professionals, including the police, advising attorneys, and other relevant external organizations to resolve the issue and further strengthen its system for eliminating contact with antisocial forces and all related transactions. The Bank shares its information regarding antisocial forces with all Group companies, which have created similar systems for checking for and eliminating transactions with antisocial forces.

Furthermore, in order to ensure thorough understanding of the need to prevent contact with antisocial forces, the Group General Services Division has prepared response manuals and crisis management seminars for branch offices depending on the situation. The Division has also introduced e-learning programs available to all officers and employees of the Bank and Group companies.

V. Other

1. Adoption of Anti-Takeover Measures

Adoption of Anti-Takeover Measures	Not Adopted
------------------------------------	-------------

Supplementary Explanation

—

2. Other Matters Concerning to Corporate Governance System

Our Approach to Timely Disclosure

Our "Shinsei Group Code of Conduct" sets forth certain minimum requirements that the Shinsei Bank Group imposes on all executives and employees of the Shinsei Bank Group in conformity with "The Charter of Shinsei Bank Group Corporate Behavior".

"Shinsei Group Code of Conduct"

3.2. Information disclosure

The Shinsei Bank Group has a responsibility under applicable laws and regulations to make various disclosures in order to provide the public with sufficient and accurate information in all material matters.

As an issuer of listed securities, the Bank has established the "Procedures for Timely Disclosure," internal regulations to ensure the timely and appropriate disclosure of important corporate information to investors. All officers and employees of the Bank are thoroughly versed in the

Procedures. The responsibility for the management and timely disclosure of information resides primarily with the Chief Officer, i.e. the Disclosure Officer and with the Group Investor Relations & Corporate Communications Division.

The specifics of the Bank's system for timely disclosures are as follows:

- (1) The Bank has designated as "the controller of Timely Disclosure Information" all GMs of divisions, departments and branch offices that have jurisdiction over information requiring timely disclosure, such as information about the Bank's business, operations and performance that is deemed to have a significant impact on investors' investment decisions. The managers designated as responsible administrators are responsible for identifying, conveying and managing information requiring timely disclosure. They must report such information to the Group Investor Relations & Corporate Communications Division as soon as they become aware of the information.
- (2) If information requiring timely disclosure is considered "insider information," the responsible administrator must also contact the Group Legal and Compliance Division, which is responsible for management of insider information. In addition, if the information includes facts that require submission of an extraordinary report, it must be conveyed to the Group Financial and Regulatory Accounting Division.
- (3) The Disclosure Officer is responsible for the management and timely disclosure of information requiring timely disclosure, and the Group Investor Relations & Corporate Communications Division is responsible for releasing the information to the Tokyo Stock Exchange.
- (4) Information requiring timely disclosure must also be reported to senior management in a timely manner.
- (5) The Group Financial and Regulatory Accounting Division submits securities reports and extraordinary reports to the director-general of the Kanto Finance Bureau. The preparation of such documents includes audits of financial statements by an accounting auditor and, if necessary, reviews by outside attorneys.
- (6) The Group Investor Relations & Corporate Communications Division is responsible for coordinating the public inspection of securities reports and similar documents at the corporate head office and branch offices.

The Bank's system for ensuring the timeliness and proper preparation of disclosures is as follows:

- (1) Important business execution matters are reported to and discussed by the Executive Committee, a body composed of Executive Directors and the heads of Executive Officers in charge that as a rule meet once a week to assist the President on important decisions related to business execution. Following to establishment of the Shinsei Bank Group Headquarters in April 2017, a "Group Executive Committee" is set in to resolute important decisions regarding the Group management with a participation of executive directors from the major Group companies. The Disclosure Officer also serves as a standing member of the Executive Committee and the Group Executive Committee, helping ensure that all matters requiring disclosure are listed.
- (2) The Group Investor Relations & Corporate Communications Division endeavors to ensure timely and appropriate disclosures through close coordination with all units of the Bank. Such coordination includes the constant exchange of information with each business group, early detection of important information requiring timely disclosure, appropriate management of such information, and the proper preparation of appropriate disclosure materials.
- (3) The Bank has also established the Disclosures Committee as a body that deliberates on securities reports and other disclosure items, makes judgements about the disclosure of events not requiring timely disclosure, and submits its opinions to the President. Disclosures Committee standing members include representatives from the Group Corporate Planning Division, the Group Legal and Compliance Division and other relevant divisions. Meetings are held whenever necessary.

Corporate Governance Structure Chart (as of June 20, 2018)
